Use OneClickdigital Media Manager

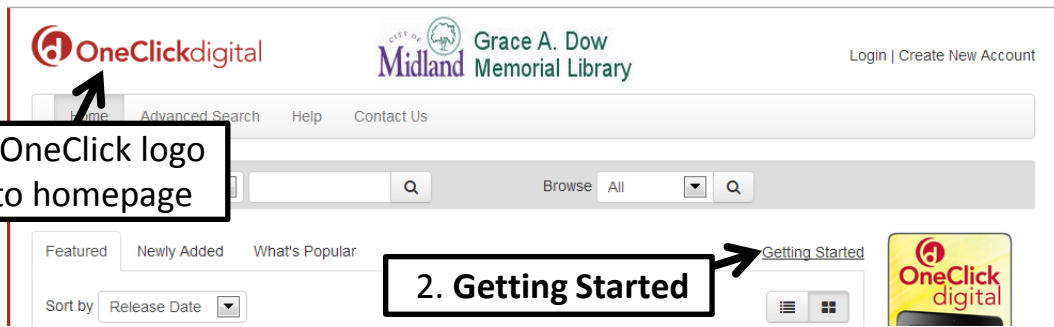

Audio Device Type:

**Apple Device** for iPhone, iPod  
**Other** for all other MP3 players

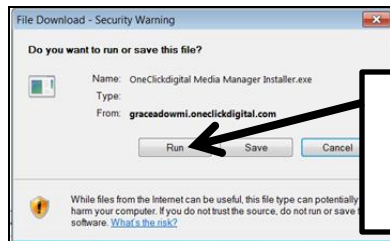

*You can ignore eBook Preferences  
(We don't use the eBook service)*

Enter the rest of the information and click **Create an Account**  
(remember your username and password)

# Download OneClickdigital Manager Software

3. Choose the **Desktop App** for your type of computer (Windows or Mac)

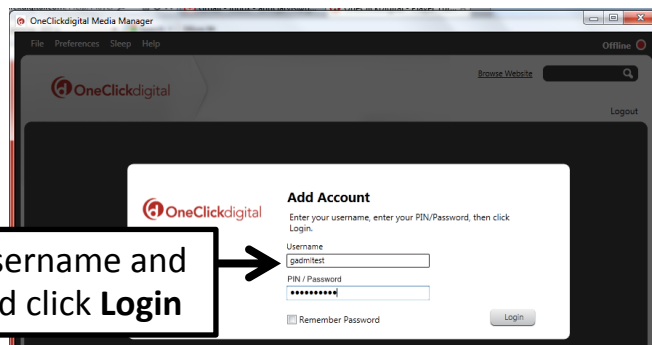

4. Run the installation file and follow the steps to add the software to your computer

## Launch the OneClickDigital Manager

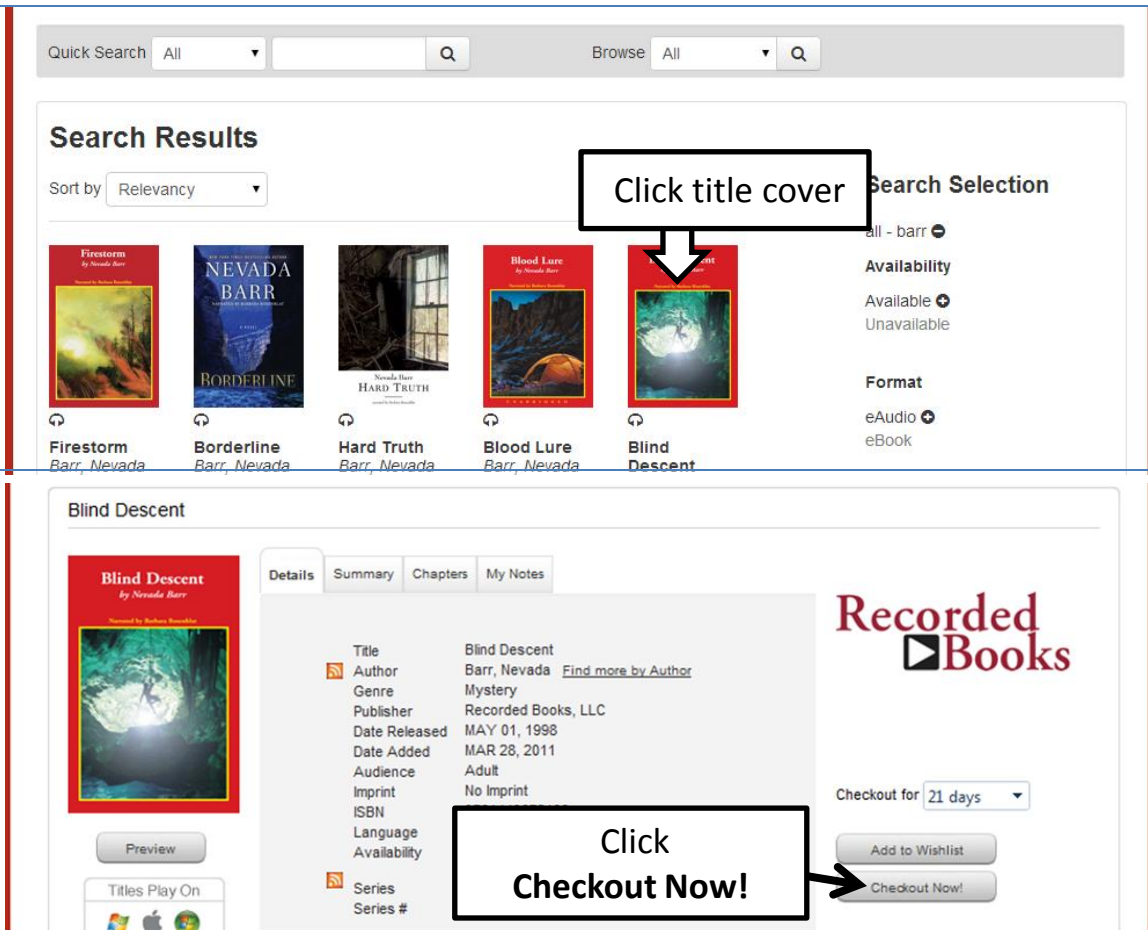

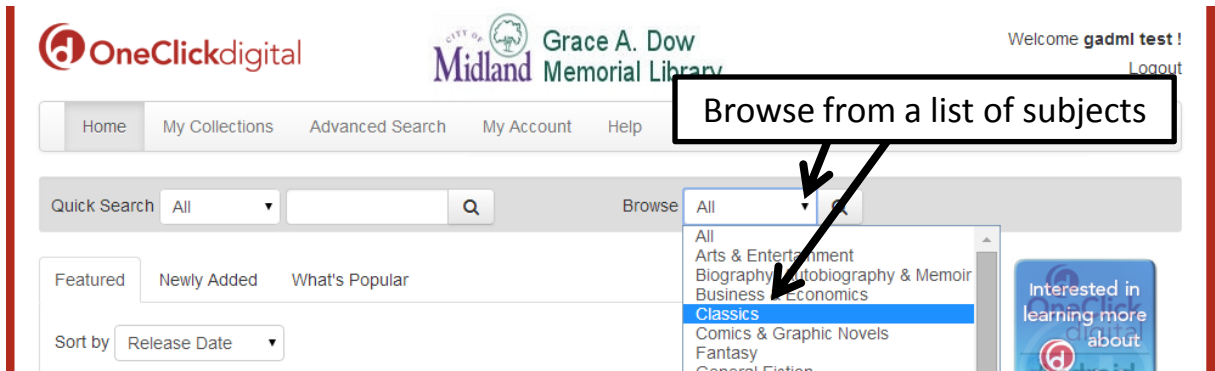

Click on the **OneClickdigital** icon on your desktop or from the start menu, the program will be found in the **Recorded Books** folder.

Enter your username and password and click **Login**

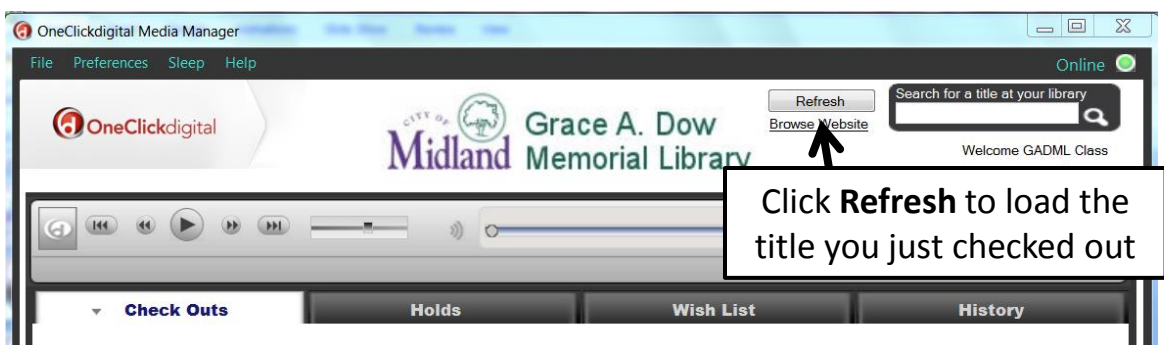

# Locate and checkout audiobook

Because there are a limited amount of audiobooks (about 3300), you may find browsing an easier way to locate titles.

## Return to the OneClickDigital Media Manager

# Transfer to your portable device

Plug-in your device to your computer using its USB cable.

A screenshot of the OneClickdigital website interface. The top navigation bar includes 'File', 'Preferences', 'Sleep', 'Help', and 'Online'. The main header features the OneClickdigital logo and the Grace A. Dow Midland Memorial Library logo. A search bar is present on the right. Below the header is a media player interface with playback controls and a progress bar. The main content area is titled 'Checked Out Items' and displays a list of items. The first item is 'Blind Descent' by Nevada Barr, with an expiration date of APR 20, 2012. Below the item details are buttons for 'Play Title', 'Renew', 'Download/Transfer', and 'Return Now'. A red arrow points to the 'Download/Transfer' button. A text box at the bottom of the screenshot reads: 'Click **Download/Transfer** to start transferring the audiobook to your portable device'.

You will then see a series of messages:

A series of four messages from OneClickdigital showing the transfer progress. The first message is an 'Alert!' with the text 'Searching for devices, Please Wait'. The second message is an 'Alert!' with the text 'Connecting to device...'. The third message is 'Transferring to device' and shows a progress bar with the text 'Progress: Transferring File: Blind Descent'. The fourth message is an 'Alert!' with the text 'Transfer of "Blind Descent" completed. Please check your Apple device playlist to listen to the book.'

In the iPod and iPhone, the title will show up in the music section of your device and create a playlist.
